Profile

I am an ambitious, goal-oriented and sociable person that loves new challenges. I enjoy learning new things, which is what drives me as a person. I am calm, methodical and I like working in close teams.

Experience

Software consultant, AxnIT Konsult, Göteborg — dec 2014 -

Started and now managing my own consultancy firm, where I usually work with web or system development. I have worked with different clients, however my collaboration with Arccore has been ongoing.

Software developer, Arccore, Göteborg — april 2014 - dec 2014

Designed and implemented an API managing customer and licenses from scratch, which revolved around techniques such as Python, Java and MySQL. Summer internship and extra during studies.

Study coach, myAcademy, Göteborg — feb 2014 - dec 2014

Worked as a mentor in a family, where I helped the children with theory homework and worked to maintain motivation. Another job during studies.

Salesman, Audio Video, Vänersborg — sommaren 2014

Mainly involved in selling mobile phones and computers, but also helped set up home entertainment system at clients and so on. Summer internship.

Worker, Hemköp Torpa, Vänersborg — 2010-2013

Varying tasks, I worked with everything from the registers to open the store in the mornings and make sure that everything gets set up. I have also been in charge of the store when the managers have been occupied. Summer internship and extra during high school.

Junior coach, Vänersborgs Tennisklubb, Vänersborg - 2008-2010

Helped out during practice and managed my own group of tennis players. Summer internship and extra during school.

Education

Chalmers University of Technology, Göteborg — 2013-

B.Sc. Software Engineering 2016.

M.Sc. to be continued after sabbatical year taken to travel in Asia.

Birger Sjöberggymnasiet, Vänersborg — Science programme 2010-2013

Mathematics and computer science

Skills

Programming languages

- Java
- Python
- HTML, CSS & Javascript
- SQL

Frameworks

- Node.js
- Django
- Wordpress
- MySQL
- MongoDB

Techniques

- Version control (git)
- RESTful services
- Apache server
- Database design and implementation
- Eclipse development

Sammanfattning

I have worked with a lot of things. Web development, systems development and managing databases. I generally tend to focus more on back-end, but I also enjoy front-end development. At Chalmers, the development have focused on Java, but I have gotten comfortable with Python and other languages as well. By working as a consultant, I feel that I have gotten a lot of experience that I would not have gained in school, such as designing, implemented and managing a customer system.

Volunteering

Head of projects, Kårhuskommittén 15/16

Kårhuskommittén, or KåK, is a committee of the Chalmers Student Union that works with the Student Union building in different ways. We take care of it and make sure that it is a nice and cozy place for all students at Chalmers. As head of projects, I make sure that different construction projects happen, and I am also responsible that all materials needed for the projects are procured.

Head of Public Relations, DatE-IT 2014

DatE-IT is a labour fair for students at Computer Science, Electrical Engineering and Software Engineering. As Head of PR, I was responsible for the group that designed the catalogue of the fair and also the advertisement prior to the fair.

Head of Public Relations, ArmIT 14/15

ArmIT is the corporate relations committee of the Software Engineering Student Division and I was in charge of everything regarding public relations, such as designing posters and made sure that students were informed of our events.

Corporate host, DatE-IT 2013, CHARM 2014 & DatE-IT 2015

Volunteered at labour fairs DatE-IT and CHARM as a corporate host where I help companies get the most out of their fair experience.

Junior coach, Onsjö Golfklubb, Vänersborg

Managing junior golf groups and in charge of designing and planning suitable practice plans together with another junior coach.
