Profile

I am an ambitious, goal-oriented and sociable person that loves new challenges. I enjoy learning new things, which is what drives me as a person. I am calm, methodical and I like working in close teams. I am currently a M.Sc. student at Chalmers University of Technology in Gothenburg, Sweden, and my main field of studies is Computer Systems and Networks.

Experience

Brand manager, Netlight, Gothenburg — august 2017 -
Working to improve Netlight's presence on Chalmers campuses, arranging events, representing Netlight and general branding. Extra during studies.

Consultant, XLENT, Kristianstad/Stockholm — march 2016 - jan 2017
Worked as a consultant both in Kristianstad and Stockholm. Projects varied from cross-platform app development, devops and server management to web development. I had the opportunity to work close with customers and create solutions matching their needs. Summer internship and full-time during the fall of 2016.

Software consultant, AxnIT Konsult, Gothenburg — dec 2014 - march 2016
Started and managed my own consultancy firm, where I usually worked with web or system development. I worked with multiple projects, ranging from app development to server management. Extra during studies.

Software developer, Arccore, Gothenburg — april 2014 - dec 2014
Designed and implemented an API managing customer and licenses from scratch, which revolved around techniques such as Python, Java and MySQL. Aside from working with the customer portal, I also worked with model visualization. Summer internship and extra during studies.

Study coach, myAcademy, Gothenburg — feb 2014 - dec 2014
Worked as a mentor in a family, where I helped the children with theory homework and worked to maintain motivation. Another job during studies.

Salesman, Audio Video, Vanersborg — sommaren 2014
Mainly involved in selling mobile phones and computers, but also helped setting up home entertainment system at clients and so on. Summer internship.

Education

Chalmers University of Technology, Gothenburg — 2017 -
M.Sc. Computer Systems and Networks.

Chalmers University of Technology, Gothenburg — 2013-2016
B.Sc. Software Engineering.

Birger Sjöberggymnasiet, Vanersborg — Science programme 2010-2013
Mathematics and computer science.

Skillset

Skills and languages
P - professional, E - educational
Java (P)
Javascript (P)
Python (P)
PHP (P)
C/C++ (E)

MEAN-stack (P)
Cross-platform app development (Ionic/Cordova/Phonegap) (P)
Server management (P)
Databases (P)
Wordpress (P)

Summary
I have had the opportunity to work in many different projects and I enjoy trying new technology and techniques. I have worked with web development, systems development, devops, managing databases and much more. I generally tend to focus more on backend, but I also enjoy frontend development. At Chalmers, the development have focused on Java, but I also enjoy working with Javascript, Python and other langugages. By working full-time as a consultant during my gap year, I feel that I have gained a lot of experience in different areas which might have been hard to pick up during studies. I also like to work on projects during my spare time, which are all available on my GitHub profile.

Volunteering

Head of Construction Projects, Kårhuskommittén 15/16
Kårhuskommittén, or KåK, is a committee of the Chalmers Student Union that maintains the Student Union buildings and makes sure that they are nice and cozy places for all students at Chalmers. As Head of Construction Projects, I made sure that different construction projects were carried out, and I was also responsible for all materials required.

Head of Public Relations, DatE-IT 2014
DatE-IT is a labour fair for students at Computer Science, Electrical Engineering and Software Engineering. As Head of PR, I was responsible for the group that designed the catalogue of the fair and also the advertisement prior to the fair.

Head of Public Relations, ArmIT 14/15
ArmIT is the corporate relations committee of the Software Engineering Student Division and I was in charge of everything regarding public relations, such as designing posters and made sure that students were informed of our events.

Corporate host, DatE-IT 2013, CHARM 2014 & DatE-IT 2015
Volunteered at labour fairs DatE-IT and CHARM as a corporate host where I help companies get the most out of their fair experience.

Other

Backpacking in Southeast Asia
During my gap year from my studies at Chalmers I both worked as a consultant and also went backpacking in Southeast Asia for six months.

Cambridge Certificate of Advanced English (CAE)
Grade A
More information regarding CAE: http://www.cambridgeenglish.org/exams/advanced/

Drivers license (B)
